Welcome to the Qiskit advocate program

Congratulations!

Please feel free to share the image below, which is attached as an individual file to your acceptance email, on your socials or however you like!

If you wish to update your LinkedIn profile or resume/CV with your Qiskit advocate title, please follow the guidelines as noted in [Discord](#) and [GitHub](#).

Program Overview

Congratulations on becoming a Qiskit advocate!

You are now part of an important global community of incredible quantum computing enthusiasts who are passionate about advancing quantum computing and Qiskit. As a Qiskit advocate, you will have the opportunity to deepen your skills, build remarkable projects, and contribute to the growth of the Qiskit ecosystem.

The Qiskit advocate program was launched by IBM in 2019 to foster a global community of passionate quantum computing enthusiasts who are eager to help drive the advancement of quantum computing and Qiskit. Today, the Qiskit advocate program encompasses over 500 members from around the world who have collectively participated in thousands of community initiatives, contributed to Qiskit core development, and shared their knowledge through various platforms. As the program grows and evolves, we have seen the need to further support, grow, and recognize the diverse contributions of Qiskit advocates.

The program now consists of several tiers, each with increasing benefits and recognition, to provide a clear progression path for you and guide you through your quantum computing journey with support and resources that are tailored to different points of progression. By participating in community initiatives, contributing to Qiskit development, and sharing your knowledge, you can earn points and level up through the tiers to unlock new benefits. Here's a quick overview of the program structure:

All Advocates Tier: As a new Qiskit advocate, you'll start by training up to become a strong Qiskit advocate, engaging with your local Qiskit community, and sharing your experiences and knowledge with the broader Qiskit community. You'll have access to the Qiskit advocate seminar series to continue learning about Qiskit and advocacy, opportunities to mentor the Qiskit community, and other opportunities to get you on your way to achieving your goals in quantum computing.

Program Overview

Tier 1 Advocates: you have demonstrated some excellent commitment to the Qiskit community and developed your advocacy skills. As a result, Tier 1 opens access to the Qiskit Advocate Mentorship Program (QAMP), invitations to exclusive events, your name on the Qiskit advocate program website, Qiskit swag, and more.

Tier 2 Advocates: you have shown dedication to the Qiskit community by mentoring peers, leading community initiatives, and contributing to Qiskit development. In addition to all the previous tier benefits, Tier 2 Advocates receive early access to beta Qiskit tools and IBM Quantum education modules, a Credly badge, and invitations to even more exclusive events.

Tier 3 Advocates: you are one of the most active Qiskit advocates globally. Tier 3 is a special tier, reserved for outstanding Qiskit advocates who have consistently shown their dedication to the Qiskit community and contributions to Qiskit and Quantum Computing research. Tier 3 Advocates get extra time to run experiments on IBM Quantum Processing Units (QPUs) and 1-on-1 IBMer support to plan a Qiskit workshop or educational event.

We hope you're ready to embark on an exciting journey to advance quantum computing and Qiskit while connecting with like-minded individuals and industry experts. By participating in community initiatives, contributing to Qiskit development, and sharing your knowledge as a Qiskit advocate, you'll not only enhance your skills but also play a crucial role in shaping the future of quantum computing.

Before we get started, please make sure you record and keep your Advocate Number safe. You will need this number for claiming points, checking your points, and other parts of the program.

You can find your Advocate Number in the email we sent to you upon your acceptance into the program, which is likely where you also downloaded this document. You may file that email in a place you can refer to easily or use the area below to record your Advocate Number. Please keep this number personal and don't share it with others.

My Advocate Number:

IBM Quantum Community Code of Conduct

As a Qiskit advocate, you have the important responsibility of promoting and encouraging an inclusive and welcoming global quantum community. To help guide your understanding of the values we uphold for the Qiskit community, you can view and download the IBM Quantum Community Code of Conduct [here](#).

Read the IBM Quantum Community Code of Conduct ↗

We appreciate everyone's support in this mission, and ask that any observed code of conduct violations or inappropriate behavior are reported [here](#).

Qiskit advocate tiers

The Qiskit advocate program now offers a guided pathway of progression with increasing benefits as Advocates move up tiers. This page details the benefits of each tier.

Qiskit
Advocate

Basic Tier Advocate: Blue

(All advocates)

Benefits:

- The Qiskit advocate training module
- Private Discord server
- Approved repository of materials to use as a Qiskit advocate
- The Qiskit advocate seminar series
- Hosting Qiskit Fall Fest events and mentoring in QGSS
- Providing feedback as a Qiskit and IBM Quantum tool user
- Virtual social events

Qiskit
Advocate

TIER 01

Tier 01 Advocate: Purple

Additional benefits:

- Your name and picture to appear on the IBM Quantum community webpage
- Access to Advocate-specific Qiskit challenge materials
- Eligible to participate in the Qiskit Advocate Mentorship Program, which also provides access to networking with IBMers
- Advocate swag (once per Advocate)
- Host or support local approved events

Qiskit
Advocate

TIER 02

Tier 02 Advocate: Magenta

Additional benefits:

- A Credly accomplishment badge for the year
- Access to reserved Quantum Developers Conference tickets
- Beta test new Qiskit features and education courses
- In-person networking

Qiskit
Advocate

TIER 03

Tier 03 Advocate: Onyx

Additional benefits:

- 30 minutes of additional IBM QPU access per month
- 1-on-1 IBMer support to plan a Qiskit workshop or educational event

Onyx tier includes everything the program has to offer

Benefits may change occasionally. Any changes will be communicated in advance. Please see the most up-to-date version [here](#).

Tier progression

You may be thinking, “How can I move up tiers and gain access to even more amazing things as a Qiskit advocate?”

Just like any kind of loyalty system, you can earn points to progress in the Qiskit advocate program by completing certain kinds of activities relating to community outreach and initiatives, and more. The points guide below outlines the activities that are eligible for points and the respective number of points you can claim by completing each activity. Each activity earns you exactly its respective number of

points, no more, no less. The numbers in the table denote how many points you can claim for each completion of the activity. For example, you can obtain 1 point for each month you use at least 8 minutes your open plan IBM QPU allocation.

Please note that some activities will only ever be completed once, for example, the Qiskit advocate training. Each activity must be able to be proven, for example by providing a URL to a Qiskit study group naming you as an organizer, or by being checked by us, for example QPU usage.

Activity	Points
Complete the Qiskit advocate training	1
Accepted syntax / grammar / small bug etc PR to Qiskit SDK or Qiskit Ecosystem	1
Complete a badged course ^[1] on IBM Quantum Learning	1
Attend a seminar in the Qiskit advocate seminar series or watch the recording within 24 hours of it going live	1
Created a Qiskit v2.x Certification practice exam (min 20 questions)	1
Participate in an approved ^[2] event	1
Use more than 8 minutes of open plan QPU allocation in a month	1
Complete the half-yearly Qiskit advocate program feedback survey	1
Participate in or organize a Quantum Computing club or Qiskit v2.X Certification study group	2
Give an approved ^[3] talk using Qiskit advocate materials	2
Complete a user interview (by IBM request only) ^[4]	4
Win an external hackathon event using Qiskit	4
Active mentoring in or co-hosting of IBM-run events (QGSS, Qiskit Fall Fest)	4
Accepted code PR to Qiskit SDK or Qiskit Ecosystem, e.g. new feature, major bug fix	4
Complete QAMP project	4
Opt-in to and use up 180 minutes in IBM Quantum’s open plan promotion	4

This points guide may change slightly from time to time, for example when new eligible activities are added. Changes will be infrequent and communicated via Discord. Check the most up-to-date version with more details [here](#).

Activities that you participate in on or after the date you are accepted into the Qiskit advocate program are eligible for points. The effective date of new activities will be the day they are added, meaning you may claim points for participating in these new activities from that date onwards.

[1] Excludes the Basics of Quantum Information and Foundations of Quantum Algorithms badges because earning either of these badges are pathways into the Qiskit advocate program.

[2] Occasionally, we will engage Qiskit advocates to support select external events. Participation in these particular events are the only events eligible for points claims.

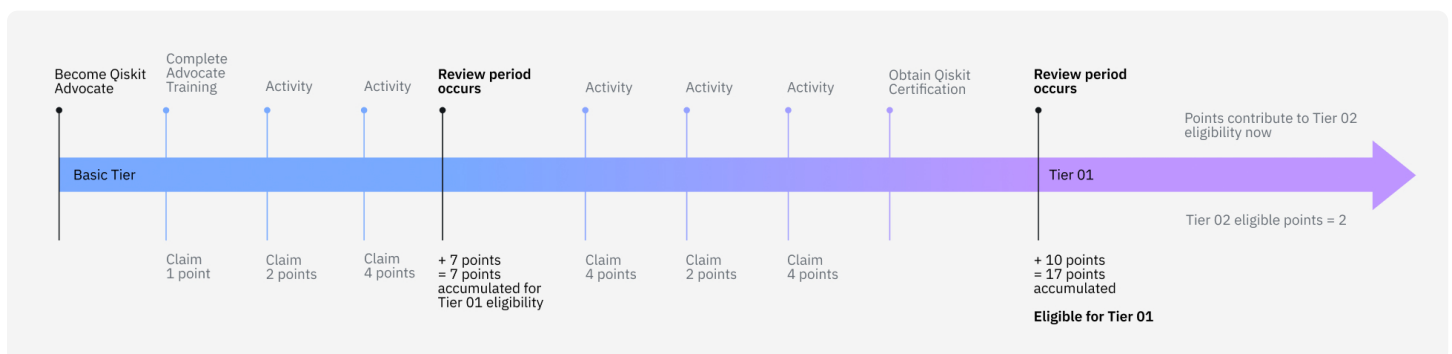

[3] Please submit your talk for approval in advance via [this form](#). Occasionally, we also will engage Qiskit advocates to talk at select external events.

[4] Interviews are conducted anonymously and independently to the Qiskit advocate program. Your feedback, positive or negative, does not affect your points eligibility.

Tier progression:

How to claim points & progress

1. Complete activity.
2. Access the claim points form [here](#).
 - You can also find this link in the [#claim-points](#) Discord channel or via GitHub.
3. Fill out the form
 - We encourage you to submit this form as soon as you complete an activity.
 - You will be asked for your Advocate Number for us to be able to assign you points. This is why it is important to keep your Advocate Number somewhere safe and private for your reference.
4. Wait for your points to be validated and awarded.
 - Reviews occur every 2 months.
 - You may check how many points you have accumulated so far [here](#). You will need to search for the row with your Advocate Number.
5. Once you are eligible to move up tiers, your tier status will be updated, and you will be notified via email with details on how to access your new benefits.
 - Tier 1 threshold: 15 points. You must have also completed the Qiskit advocate training module and the Qiskit v2.x Certification.
 - Tier 2 threshold: additional 15 points.
 - Tier 3 is not eligible to move to through points alone. Tier 3 eligibility is reviewed on a case-by-case status and Tier 2 Advocates are provided with a form they can submit to show their interest in becoming a Tier 3 Advocate.
 - Please note that the points thresholds are subject to review and may change with notice.
6. When you move to tiers 1 and 2, any points beyond the threshold 15 points will be carried over to your eligible points for the next tier. In this [board](#) you will see this number in the column titled “eligible points” and you will also see the number of total points you have accumulated in your whole time as a Qiskit advocate in the “cumulative points” column.

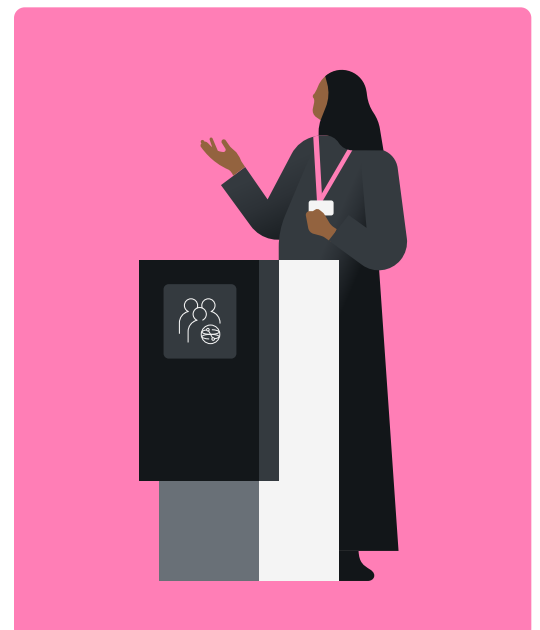

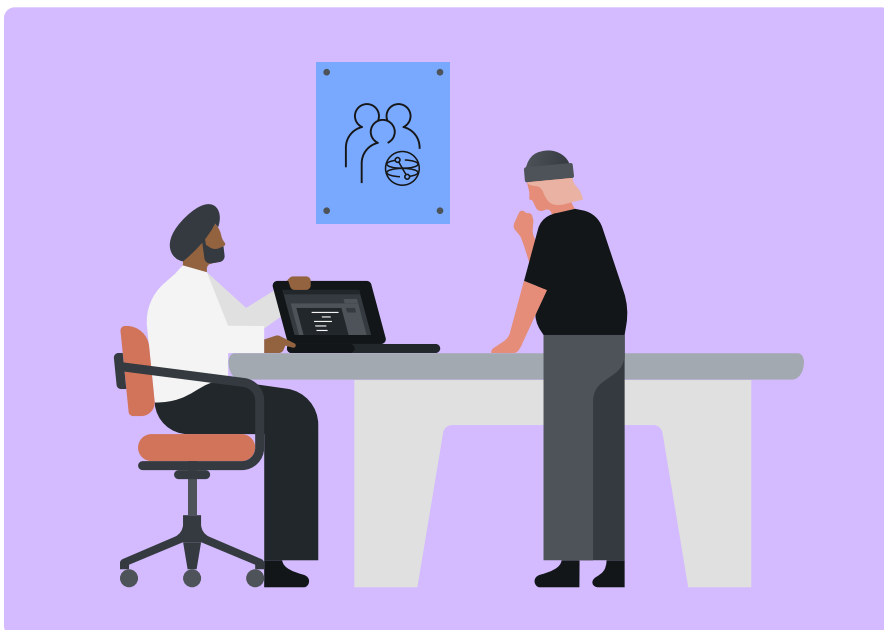

Tier progression:

How to retain your tier

We're committed to helping Qiskit advocates get the most out of the program and provide those remaining active in the program with the best benefits and opportunities possible. To ensure you can continue to enjoy the exclusive benefits of our tiered system, we encourage you to stay active and engaged. As a valued tier 1+ advocate, we want to support you in maintaining your hard-earned status. To do this, we simply require that you earn and claim at least 8 points within any 12-month period.

Don't worry, we've got your back! If you need a reminder, we'll send you a friendly email at the 6-month mark to help you stay on track. And if you do happen to move back to the Blue tier, don't worry – you're still a valued Qiskit advocate! You can always work your way back up the tiers by following the same process that brought you success initially. We're here to support your growth and success every step of the way!

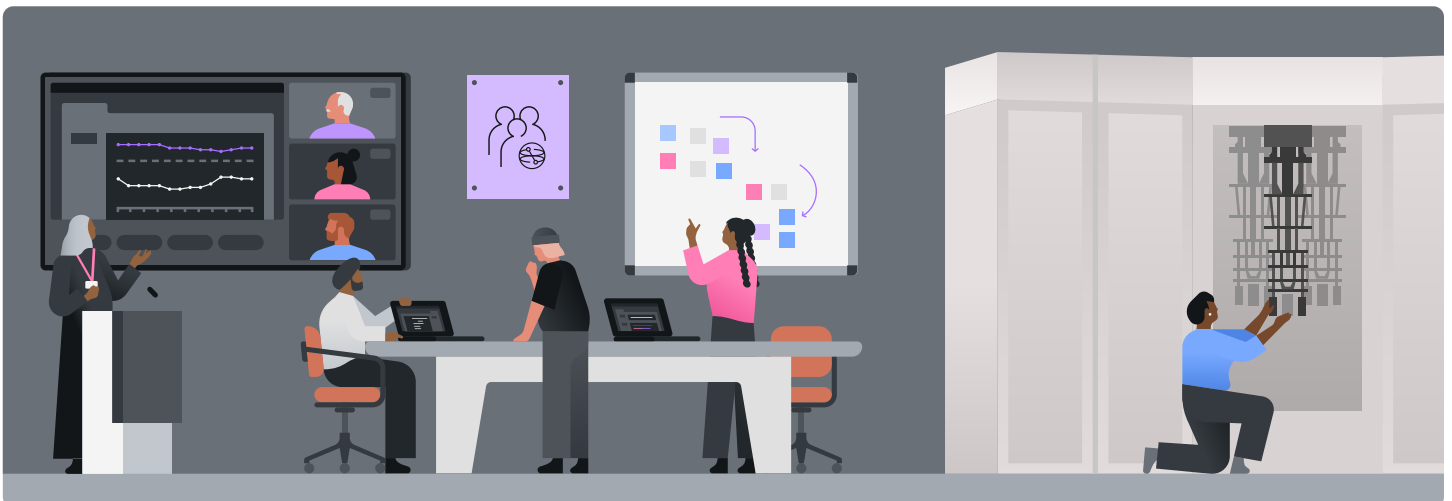

What are your QAP goals?

At this point, it's a good idea to take some time to think about the personal and professional goals you have in the realm of Quantum Computing and Qiskit. You may already know what your goals are, but not written them down, or maybe you haven't thought about any specific goals.

Use the following page as a chance to pause, think about what you'd like to achieve through the Qiskit advocate program, and write these goals down either in this program guide or whatever tool you prefer. We also recommend you list specific actions you can take to achieve these goals. After some time, you can return and reflect on your achievements and set new goals for the future.

Here are some example goals of all different types and effort that you can use as inspiration:

- Hold a successful Qiskit hackathon at my university
- Network my way to a job opportunity in the Quantum Computing field
- Use a Quantum Computer for a problem utilizing 100+ qubits
- Speak about Quantum Computing and Qiskit at a conference
- Make a friend who is as interested in Quantum Computing as I am

My goals

What do you hope to achieve this year as part of this program?

☒ Example

*Hold a successful Qiskit
hackathon at my university*

Why do I want to achieve this goal?

I am interested in teaching, and I want to lead the improvement of Quantum Computing and Qiskit literacy in my local community.

Actions to achieve goal:

- Attend seminars in the Qiskit advocate seminar series about how to create successful events
- Attend other seminars and events to improve my Qiskit understanding and technical communication skills
- Find others in my local community and at my university interested in planning a Qiskit hackathon, e.g. through student societies, other local Qiskit advocates, and my university faculty
- Register my interest for holding a Qiskit Fall Fest event, through which I can get access to materials I can use to set up a hackathon event, or become a Tier 1 Advocate to gain access to Advocate-specific Qiskit challenge materials.
- Plan my awesome event

☐ Goal 01

☐ Goal 02

☐ Goal 03

Next steps checklist

Now it's time to get started! To get you inducted into and set up for success in the Qiskit Advocate Program, please complete the checklist below:

- ☐ Save your Advocate Number, as provided in your acceptance email, somewhere safe, e.g. write it down on page 5 or bookmark your acceptance email
- ☐ Join the [Qiskit advocate hub on Discord](#)
- ☐ In Discord, say hi in [#intros-and-self-promos](#), introduce yourself, and find other Qiskit advocates in your region in the country channels
- ☐ In Discord, read the instructions and assign yourself your interests in [#opt-in-qap-experiences](#)
- ☐ Subscribe to the Qiskit advocate calendar [Qiskit advocate calendar](#)
- ☐ Complete the [Qiskit advocate training module](#)
- ☐ Sign up for the next seminar in the Qiskit advocate seminar series or find an old seminar recording of interest to watch via [GitHub](#)
- ☐ Read the most recent Qiskit advocate newsletter [here](#)
- ☐ Download and install [Qiskit](#)
- ☐ Earn your first point! Find an eligible activity [here](#), complete it, and claim your point/s [here](#)

Important links & contacts

Qiskit advocate program:

[Qiskit advocate library](#)

- In this library, you can find everything you need for the Qiskit advocate program, like resources you can use, the monthly newsletters, links to seminar recordings, and so much more.

[Qiskit advocate hub on Discord](#)

- This Advocates-only Discord server allows you to stay up-to-date with everything that is going on in the program, as well as allowing you to connect with other Advocate peers.

Qiskit advocate program contact details

- The main contact for the Qiskit advocate program is Astri Cornish:
 - Qiskit Slack display name: @Astri
 - Discord username: astri_corn
 - Email: astri.cornish@ibm.com
- Please note: if your query is about an IBM Quantum Challenge, Qiskit Global Summer School, Qiskit Fall Fest, or any other Qiskit event, and does not relate to the Qiskit advocate program, please email quantum.events@us.ibm.com
